Registration Closing date

30 July 2011

You know that you can draw checks upon a bank, whenever you need money, provided you have enough current deposit therein. If the bank goes bankrupt, it will be a disaster. The educational system is the bank on which the nation draws a check whenever it wants strong, reliable, skilled workers. If it goes bankrupt, as it has very nearly gone today, it is national disaster. If the system is overhauled and lubricated, the next generation is assured of good leaders.

- Sai Baba

Whilst futurologists paint a grim picture of the planet if we continue on the current trajectory of waste, ecological mismanagement and exploitation, it is possible to envisage a positive alternative through an educational reform and spiritual revival which harnesses powerful modern technology to reverse adverse trends and avert the grim predicted future. This Conference focuses on practical steps towards such a new civilisation with a positive future.

Education can claim success only when it results in the student gaining awareness of the Divinity inherent in him and others. No academic degree can confer as much self confidence and self satisfaction and lead man as quickly and gladly to self sacrifice and self realization as that awareness. It has to be transmitted by teachers who have it through a sense of duty and in a spirit of love. - Sai Baba

**Sathya Sai Education
Practical Steps Towards
Future Prosperity**

**NATIONAL SAI
EDUCATION CONFERENCE
MURWILLUMBAH

Open Forums

Sai Baba says: The world does not need a new order, a new education, a new system, a new society, or a new religion. The remedy lies in the minds and hearts filled with holiness. Holiness must take root and grow in the minds and hearts of youth everywhere, of boys and girls and of children. The good and the godly must endeavour to promote this task as the one great sadhana (spiritual practice) which they have to undertake.
